WEST PENNARD C OF E PRIMARY SCHOOL

ACCESSIBILITY POLICY & PLAN

2017-2020

Legal requirement

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The Department for Education (DfE) has published advice on the Equality Act for schools, which explains that schools must have an accessibility plan aimed at:

- Increasing the extent to which disabled pupils can participate in the curriculum
- Improving the physical environment of schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improving the availability of accessible information to disabled pupils

Definition of Disability

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Aims

The purpose of this plan is to show how West Pennard C of E Primary School intends, over time to increase the accessibility of our school for disabled pupils. West Pennard C of E Primary School aims to treat all stakeholders, including pupils, prospective pupils, staff, governors and other members of school community favourably and, whenever possible, take reasonable steps to avoid placing anyone at a substantial disadvantage. The school aims to work closely with disabled pupils, their families and outside agencies in order to minimise or remove any potential barriers to learning. Our aim is for all pupils to learn, achieve and participate fully in school life.

This Accessibility Plan has been drawn up in consultation with the Local Authority, pupils, parents, staff and governors of the school and covers the period from September 2017 – August 2020.

- Improve access to the **physical environment** of the school, adding specialist facilities as necessary. This covers improvements to the physical environment of the school and physical aids to access education.
- Increase access to the **curriculum** for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist **aids and equipment**, which may assist these pupils in accessing the curriculum.

- Improve the delivery of **written information** to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.

Attached is an Accessibility Action Plan, relating to these key aspects of accessibility. This plan will be reviewed and adjusted on an annual basis. New plans will be drawn up every three years.

We acknowledge that there is a need for on-going awareness raising and training for staff and governors in the matter of disability discrimination and the need to inform attitudes on this matter.

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Equality Statement and Objectives
- Health & Safety (including off-site safety)
- SEND Policy (including administering medicines)
- Behaviour and anti-bullying Policy
- School Development Plan
- School Prospectus and School Aims
